

MR. WILLIAMS

I would like to commend you on a job well done. I know some lawyers who take your money & still stink. But you obviously care about your reputation. And I thank you and am glad I chose you.

Mr Williams,

This past year has been very stressful, very sad, and really surreal for our family.

Although the trial did not have the overall desired outcome, it did bring to a close this nightmare with some positive results.

I would like to Thank you for All you did to help us. I truly believe ~~with~~ out your help the outcome would have been much worse. Your total professionalism in All our meetings, your meticulous preparation, your polite yet tough questioning gave us the fighting chance we needed.

We do not have much experience with lawyers but I know we got the best representation we could have ever hoped for. Your tireless investigations, your eye for detail and your organizational skills are top notch.

Thank you for caring and believing in our case.
